

Green Gecko is a home, school and family for 70 children who previously lived and begged on the streets of Siem Reap, Cambodia.

Check out where the kids now eat, sleep, learn and play, and enjoy a day in the life of the Gecko kids today.

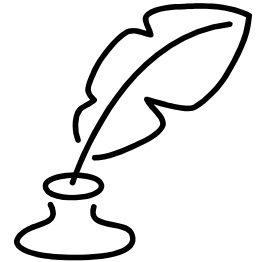

Super sleuth

How much do you know about Cambodia? Find out how many people live in Siem Reap and how many people live in Cambodia, and compare this to how many people live in your town and your country. See what other interesting facts you can find out, and share them with your class.

World of words

Make a timeline for a normal day in your life. Think about where you eat, sleep, learn and play.

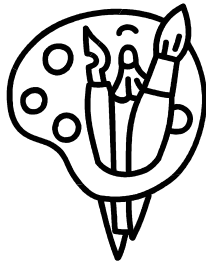

What parts of your day share something in common with the Gecko kids? What parts are different? What subjects do you study at school? How do these compare to the Gecko activities?

Creative corner

The Gecko kids have shared their day with the world, and so can you!

Prepare a script or storyboard of the key scenes you would like to film, and get the cameras rolling... maybe you can film your fundraiser or a short message for the Geckos? Upload your short film to YouTube so you can send the link to your family and friends.

FUNdraising

It's time to Get Gecko'd at school! Host a green-themed casual dress 'mufti day' and ask everyone to make a gold-coin donation to leave their school uniform at home.

Put your thinking caps on and see what other green ideas you can come up with... get creative with green face-paint, go wild with green decorations, or ask your school canteen to mix up some green fruit smoothies especially for the day.
